

Setting Up Printing for Mac

PURPOSE

This document covers the printing instructions for Mac users.

 [Click here to watch the tutorial video.](#)

To start, you must “Forward printing devices” on your RDC client.

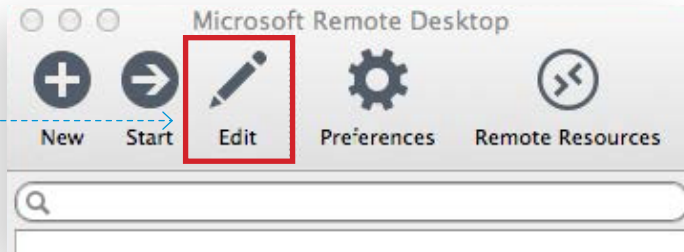

STEP 1

Open RDC Client.

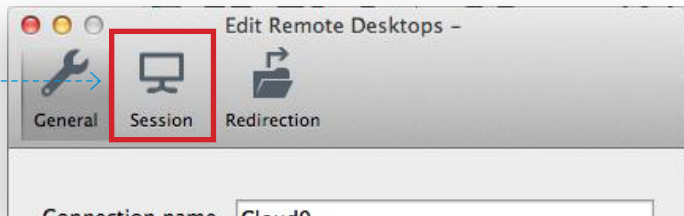

STEP 2

Select **Edit**.

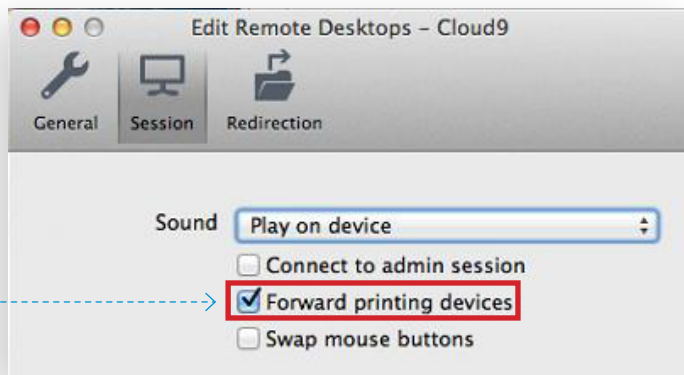

STEP 3

Select **Session**.

STEP 4

Mark the **Forward printing devices** checkbox.

STEP 5

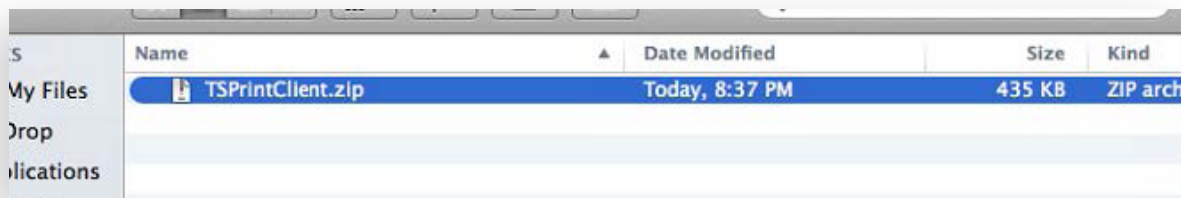

[Click here](#) to download TSPrint for your MAC.

STEP 6

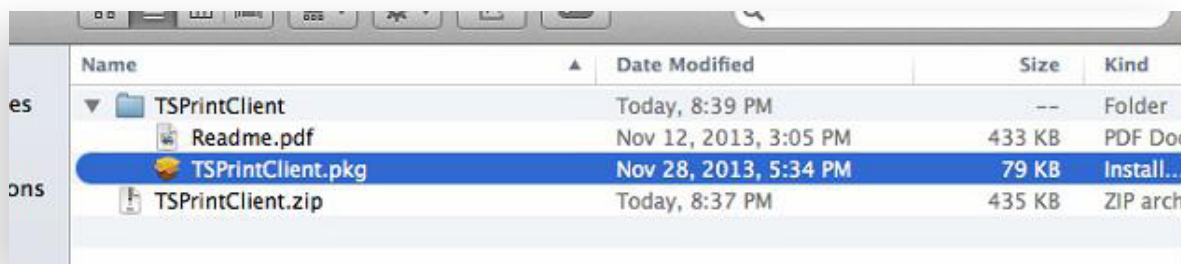

Save the file and run the program:

STEP 6 a

From your Downloads folder, double click the **TSPrintClient.zip** folder to unzip it.

STEP 6 b

Double click **TSPrintClient.pkg** to install the application.

Once installed, there will be a printer icon running in the Menu bar

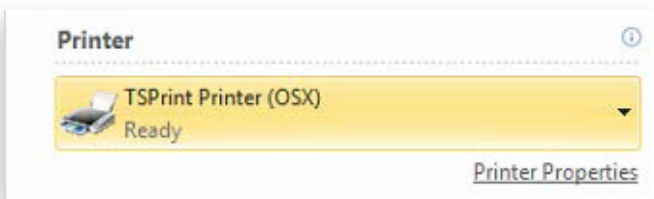

STEP 7

Log into the Cloud as normal.

STEP 8

Choose **TSPrint Printer (OSX)** when selecting your printer.

STEP 9

You can click **Print** or click **PDF** to save to PDF.
