Cloudnine does not guarantee any 3rd party applications and Customer must have proper licenses for access to 3rd party applications and provide those license numbers to Cloudnine when requested.
- 1.2. **Hours of Availability.** Cloudnine shall use commercially reasonable efforts to make the ASP services available twenty-four (24) hours per day, 7 days a week. Notwithstanding the foregoing, Cloudnine reserves the right to suspend Customers access to the ASP Application (i) in the event that Customer materially fails to fulfill its obligations under this Agreement, (ii) for purposes of scheduled maintenance, or (iii) for purposes of emergency maintenance work at any time as deemed appropriate by Cloudnine.
- 1.3. **License.** During the Term and subject to the terms and conditions of this Agreement, Cloudnine hereby grants to Customer a non-exclusive, non-transferable license, royalty-free, to have its employees or Clients access the ASP Application.
- 1.4. **Restrictions.** Cloudnine will strictly adhere to all End User License Agreements (EULA) for all software, programs, applications, and services attached to the use of hosted Applications. Therefore, the Customer shall not reverse engineer, decompile, translate, disassemble, attempt to discover the source code of, or in any other way manipulate the Application in order to use it outside of the EULA agreement for that particular Application, or ask that Cloudnine assist in or complete such actions on behalf of the Customer. Additionally, the Customer shall not license, sub-license, distribute, or disclose the use of their Application(s) to any third party, or use their Application(s) for any purpose other than accessing the Customer’s own data in accordance with this Agreement. Customer agrees that they are solely responsible for the content of any material posted to their Application, and that no end-user will attempt to access programs, options, settings, services, files, applications, or servers not within their user rights. At no time may the Customer share user credentials, license numbers, or any other applicable information used to access Cloudnine services or 3rd party applications. All login credentials and license information should directly and accurately reflect the proper names, amounts, and versions of both the end users and software/applications

being utilized by the Customer. If the Customer is found to be performing any of the aforementioned actions or soliciting the services of Cloudnine in performing these actions,

Cloudnine reserves the right to cancel the existing contract with the Customer immediately with no refund.

1.5. **Support**. Cloudnine operates a help desk (“Customer Help Desk”) between the hours of 5:00 AM and 9:00 PM PST, Monday through Friday, exclusive of Cloudnine’s scheduled holidays (which are: Christmas Day, New Year’s Day, Thanksgiving, July 4th, Memorial Day, Labor Day). The Help Desk will accept inquiries by telephone, electronic mail, or ticketing system solely from those users designated by Customer to make inquiries. Cloudnine will use its best efforts to respond to inquiries within [SLA](#).

1.6.1. Cloudnine offers full technical support free of charge for the e-Dashboard, Exchange Hosting, and any Cloudnine products/services.

1.6.2. Cloudnine will provide quality technical support for applications to a reasonable extent. Cloudnine is not responsible for application failures and is not the manufacturer of such products. If it is determined that Cloudnine cannot solve an application problem with reasonable effort, Customer will be given further instructions regarding what to do. In some instances, additional technical support may be offered at Cloudnine technical support rates.

1.6.3. Cloudnine is not responsible for technical support on Customer’s hardware, software or connection problems. This includes but is not limited to: internet connection issues, hardware failures, firewall problems, printers, scanners, etc. Cloudnine will recommend solutions that the Customer can either implement themselves, hire outside IT professionals or be billed by Cloudnine at the appropriate technical support rates.

1.6.4. Technical support is available Monday through Friday 5 AM – 9 PM PST. After hours technical support is available by calling the main number or submitting a ticket. If the request is an emergency, Customer will receive assistance ASAP free of charge. If the technical issue is a non-emergency during after-hours the Customer will be called back during regularly scheduled hours.

1.6.5. After hours emergency calls consist of not being able to login or access files. Printing problems, email problems etc. are not emergency issues.

1.6.6. Cloudnine’s technical support will respond to questions regarding the features and the functioning of the designated products. It is not the responsibility of the technical support agent to create or deliver forms, applications, documents or customizations such as macros, menus, batch files, directory objects, or product configuration objects for the caller or Customer, although assistance in these areas may be provided. These services may be available from Cloudnine under a separate consulting proposal or agreement.

1.7. **On-Site Support**. While at Customer’s facilities or data center, Cloudnine shall cause its personnel to comply with all of Customer’s security policies and other rules and regulations that are provided to Cloudnine. In the event that Customer determines in good faith that the continued assignment to Customer’s account of one of Cloudnine’s personnel is not in the best interests of Customer, then Customer shall give Cloudnine written notice to that effect. After receipt of such notice, Cloudnine

shall have a reasonable period of time in which to investigate the matters stated in such notice, discuss its findings with Customer, and resolve any problems with such person. If, following such period, Customer requests replacement of such person, Cloudnine shall replace that person with another person of suitable ability and qualifications. Cloudnine's personnel shall be subject to immediate removal from the premises or immediate removal from the Customer account for serious misconduct in the same manner as Customer employees and in accordance with applicable Customer security policies.

1.8. **Security**. Cloudnine will use industry standard security procedures to secure the transmission of all information to and from the user and the ASP Application. Such security precautions will include, at a minimum, the following: (i) user Identification and access controls designed to limit access to information to Customer's authorized users; (ii) industry standard encryption techniques when information is transmitted to or from the ASP Application; and (iii) physical security measures, including securing all information on a secure server, in locked data cabinets within a secure SOC2 Type II Certified Data Center. In cases of security breaches or any dispute with Customer, Cloudnine has the right to limit access to Services at its sole discretion.

1.9. **Scheduled Maintenance**. In order to keep Cloudnine infrastructure up-to-date and performing optimally, Cloudnine will perform scheduled maintenance to Customer's server, and the underlying hardware and software from time to time. The current scheduled maintenance window is from 10 PM each Friday through 12 AM Saturday (2 hours). We reserve the right to suspend access to the Customer's server during the time required for the scheduled maintenance. Cloudnine will make every reasonable effort to perform all maintenance within the prescribed window of time, however, should the maintenance require additional time to complete, Cloudnine will make relevant information available to the Customer through appropriate means of communication, as deemed necessary by Cloudnine.

Cloudnine is not responsible for the loss of hours in connectivity for the Customer or the Customers' Customers during scheduled maintenance, and every effort will be made by Cloudnine to schedule all maintenance during off-peak, or weekend hours in order to minimize the impact to our Customers.

1.10. **Unscheduled Maintenance**. In the event of unforeseen outages, service impacting issues, and other emergency maintenance that Cloudnine deems necessary, unscheduled maintenance may need to be performed in order to restore services, or repair underlying hardware and software. Cloudnine will make every reasonable effort to limit the amount of time that the Customer's services are unavailable, up to the time allowed for by our SLA, and proper updates and notifications will be provided as deemed necessary by Cloudnine. After any such unscheduled maintenance is performed, Cloudnine will provide a Post Incident Report to the affected Customers that will give a brief summary of the cause and the resolution of the unscheduled maintenance.

1.11. **Backup**. Cloudnine will maintain and follow a disaster recovery plan designed to minimize disruption to Customer's access to the information contained on the ASP Application, comprised of internal procedures to recover the Cloudnine environment in the event of a disaster. The plan provides for daily back-up of information contained on the ASP server. Daily back-ups are stored for 30 days rolling. Cloudnine is not responsible for corrupt files within the network. Customer must maintain its own local copy of all data uploaded or stored to the Cloudnine ASP application. Cloudnine is not responsible for Customer's lost or corrupted data for failure of Customer to maintain a local copy of all data. Customer acknowledges that it is Customer's responsibility to execute frequent and routine back-ups and frequent and routine test-restores of data and that

Cloudnine is not liable for any loss of data by Customer resulting from or relating to any action taken by Cloudnine pursuant to this Agreement.

- 1.12. **Hardware.** Any scanner hardware purchased from Cloudnine will include free technical assistance and setup to scan directly into the cloud. Customers that have scanners not purchased from Cloudnine can utilize the free scanner programming guide to setup scanning. If technical assistance is still needed there will be a per hour charge with a 1-hour minimum.
- 1.13. **3rd Party Application Hosting.** Virtual Server contracts are issued with a set number of 3rd party applications, each additional app Customer would like installed on the server will be billed according to the following criteria:
 - 1.13.1 All applications must be installed by a Cloudnine technician; no users on the system can install apps. Customers who violate this requirement are solely responsible for any consequences or liability. To add an app please complete the appropriate form at <https://www.cloudninerealttime.com/support/> or complete the request in the C9 Portal.
 - 1.13.2 Cloudnine does not guarantee the functionality of any 3rd party applications. There will be no refunds by Cloudnine should an app not function to Customer's satisfaction. Must be compatible with 2008R2 and 2012R2 Terminal Servers. An app is anything that requires an installation. If Customer is hosting a tax software, they are granted up to 3 years of the application to count as one single app. Each additional year will be considered its own application. Customer will be notified when resources have been added to maintain stability after addition of Users, Applications or other Services that Cloudnine had authorization to add. Customer will be notified of the additional costs and given an opportunity to approve or decline, after which the resources will be removed. However, if the Customer declines, Cloudnine's standard SLA (Service Level Agreement) for technical issues cannot be honored, as the actions Cloudnine deemed fit to resolve issues have been reversed.
- 1.14. **Server Reboots.** Server reboots are utilized to refresh resources, install drivers, updates and security patches. Reboots optimize resources and defrag memory to improve system performance. For these reasons, Cloudnine requires weekly server reboots and schedules them to occur during our weekly maintenance window each Friday from 10 PM through Saturday, 12 AM Pacific. It is the user's responsibility to save data at the end of each user session. To ensure that all work is saved, Cloudnine recommends that users save work and log out of all applications at the end of each session. We recommend nightly server reboots and empower the Primary Server Admin to set the nightly reboot schedule on their main server through the Cloudnine portal. We also empower the Primary Server Admin to schedule immediate server reboots when necessary. An immediate server reboot request requires a confirmation by the Primary Server Admin. After confirmation is received, Cloudnine will display a warning notification to all active server users both five minutes and sixty seconds prior to the reboot. Users must save all work and log off the server to avoid potential data loss associated with the reboot. Customer initiated reboots apply only to the customer's main server, not to data or other servers. Customer must call Cloudnine Technical Support to reboot other servers. Customer accepts all risk of loss associated with server reboots.
- 1.15. **System Requirements.**
 - Broadband Internet Connection:**
 - At least 3Mbps DOWNLOAD and 512Kbps UPLOAD speeds required.
 - **Note:** If you have multiple concurrent users on the same network/office, add 1Mbps download and 512Kbps upload to the connection requirements above.

If the contact information Customer has provided is false or fraudulent, Cloudnine reserves the right to terminate Customer's access to the Services in addition to any other legal remedies.
- 7.2. **Work Order Documents.** If Customer does not provide requested Work Order Documents within thirty (30) days of signing their contract with Cloudnine, therefore delaying the launch of their ASP Application at no fault of Cloudnine, then Customer agrees that their ASP Application will be considered live at this point (the "Go Live Date") and their billing cycle will begin thirty (30) days from contract signature date and any annual renewal will be based on this Go Live Date.
- 7.3. **Payment by Credit Card or Bank Transfer.** Prior to activation of user accounts and at any applicable time thereafter, Customer authorizes Cloudnine to charge the credit card provided or transfer funds from the bank account provided for the amount of the fees due for the agreed upon services, together with any applicable set-up charges, registration fees, bank transfer fees, or fees resulting from services provided in addition to or in excess of the previously agreed-upon limits, or any other charges outlined in the signed contract.

In consideration of Cloudnine providing access to the ASP Application, Customer shall pay to Cloudnine all applicable License Fees. The License Fee is charged as contracted on the Cloudnine Proposal or Sign Up document in conjunction with this Agreement. All license fees are subject to change with a thirty (30) day notice. Cloudnine further reserves the right to institute new services and change fees in association with the provision of such new services as it deems appropriate. Periodic services fees are due for a period if the service was available for your use in the period regardless of whether the service was used in that period.

- 7.9. **Software Fees.** Cloudnine does not charge for your use of software when you are using traditional software licenses (as distinguished from leased/subscription or "as-a- service" software licenses). Cloudnine is in no way renting or sublicensing such software and does not offer such software on an application service provider or time-sharing basis because Cloudnine fees are not for use of such software, but for your lease of the hosting platform, for maintenance of this platform, and for support for your use and the availability of this platform. Cloudnine charges for use of software that you lease through Cloudnine including any use of Microsoft Office but excluding any use of Intuit products except those explicitly leased through Cloudnine.
- 7.10. **Promotional Rates.** Cloudnine reserves the right to offer subsequent promotional rates which may or may not be more favorable than the terms under which you entered this Agreement. Cloudnine will hold terminated Customers data for a period of 30 days and provide the Customer an opportunity to retrieve its data under section 12 of this policy.

Cloudnine may terminate a Customer’s services if it fails to make timely payments based upon its monthly, yearly or quarterly financial obligations to Cloudnine. If for any reason the credit card or bank transfer information you provided is insufficient to pay any fees at the commencement of any service period, Cloudnine at its sole discretion will have the right to suspend and/or terminate your account under the terms in this Agreement. Refusal or rejection of any charge or any portion thereof is grounds for account suspension and/or termination at the sole option of Cloudnine under the terms of this Agreement.

Cloudnine may delete all Customer data from its infrastructure if it has not received payment from Customer in regards to services rendered or fees assessed within a 30-day period.

Cloudnine is not responsible for any loss of data after a thirty (30) day period of time should Customer's services be cancelled or terminated.

8.2.4. **Effect of Termination of Services.** If Customer: (i) ceases to provide services to Customer's clients, or (ii) if Customer fails to pay Cloudnine for any reason, or (iii) if Customer fails to pay Cloudnine for a period of thirty (30) days from the invoice date, then Cloudnine reserves the right to transfer and assign all rights under this Agreement from Customer to Customer's client or any End User to whom Cloudnine is providing services prior to termination.

9.2. In particular, Cloudnine has implemented the physical access, system access, data access, transmission and encryption, input, data backup, data segregation and security oversight, enforcement and other

security controls and measures specified in the Cloudnine Realtime Terms & Conditions. Customer is advised to carefully review the Cloudnine Realtime Terms & Conditions to understand which specific security measures and practices apply to the particular products or services ordered by Customer, and to ensure that these measures and practices are appropriate for the Processing of Personal Data pursuant to this Data Processing Addendum.

9.3. All Cloudnine and Cloudnine Affiliate staff, as well as any Third Party Sub-processors that may have access to Personal Data are subject to appropriate confidentiality arrangements.

Cloudnine will not unreasonably withhold its consent to a third-party auditor requested by Customer. The third-party must execute a written confidentiality agreement acceptable to Cloudnine or otherwise be bound by a statutory confidentiality obligation before conducting the audit.

10.3. To request an audit, Customer must submit a detailed proposed audit plan to Cloudnine at least two weeks in advance of the proposed audit date. The proposed audit plan must describe the proposed scope, duration, and start date of the audit. Cloudnine will work cooperatively with Customer to agree on a final audit plan.

10.4. If the requested audit scope is addressed in a SSAE 16/ISAE 3402 Type 2, ISO, NIST, PCI DSS, HIPAA or similar audit report issued by a qualified third-party auditor within the prior twelve months and Cloudnine provides such report to Customer confirming there are no known material changes in the controls audited, Customer agrees to accept the findings presented in the third party audit report in lieu of requesting an audit of the same controls covered by the report.

10.5. The audit must be conducted during regular business hours at the applicable facility, subject to the agreed final audit plan and Abacus' health and safety or other relevant policies, and may not unreasonably interfere with Cloudnine business activities.

10.6. Customer will provide Cloudnine any audit reports generated in connection with any audit under this Section 10, unless prohibited by Applicable Data Protection Law or otherwise instructed by a Supervisory Authority. Customer may use the audit reports only for the purposes of meeting Customer's regulatory audit requirements and/or confirming compliance with the requirements of this Data Processing Addendum. The audit reports shall be and shall remain the Confidential Information of the parties.

10.7. All audits are at Customer's expense. The parties will negotiate in good faith with respect to any charges or fees that may be incurred by Cloudnine to provide assistance with an audit that requires the use of resources different from or in addition to any duties or obligations Cloudnine is required to perform pursuant to the Cloudnine Realtime Terms & Conditions.

11. Incident Management and Personal Data Breach Notification

All Cloudnine and Cloudnine Affiliates’ staff that have access to or Process Personal Data are instructed on responding to Incidents, including prompt internal reporting, escalation procedures, and chain of custody practices to secure relevant evidence. Abacus’ agreements with Third Party Sub-processors contain similar Incident reporting obligations.

11.2. In order to address an Incident, Cloudnine defines escalation paths and response teams involving internal functions such as Information Security and Legal. The goal of Abacus’ Incident response will be to restore the confidentiality, integrity, and availability of any applicable cloud environment and the Personal Data that may be contained therein, and to establish root cause(s) and remediation steps. Depending on the nature and scope of the Incident, Cloudnine may also involve and work with Customer and outside law enforcement to respond to the Incident.

11.3. To the extent Cloudnine becomes aware and determines that an Incident qualifies as a breach of security leading to the misappropriation or accidental or unlawful destruction, loss, alteration, unauthorized disclosure of, or access to, Personal Data transmitted, stored or otherwise Processed on Cloudnine systems or the applicable cloud environment that compromises the security, confidentiality or integrity of such Personal Data (“Personal Data Breach”), Cloudnine will inform Customer of such Personal Data Breach without undue delay but at the latest within 72 hours.
